

CLAIMS

1. A coated sheet in which the coating composition comprising a urethane polymer component and an acrylic polymer component and further comprises a plurality of cross-linkers.
5
2. A sheet as claimed in claim 1, in which at least one of the cross-linkers is selected from oxirane, carbodiimide, isocyanate, arizidine compounds and mixtures thereof.
- 10 3. A sheet as claimed in either preceding claim, in which at least one of the cross-linkers is selected from a carbodiimide and/or an arizidine compound.
4. A sheet as claimed in any preceding claim, which comprises two or three cross-linkers.
15
5. A sheet as claimed in any preceding claim, in which the coating composition is applied without a primer layer.
- 20 6. A sheet as claimed in claimed in any preceding claim, which comprises a film of polyolefinic polymer.
7. A sheet as claimed in any preceding claim which is receptive to inks (i.e. printable) and is water resistant, solvent resistant and alcohol resistant (as defined herein.)
25
8. A sheet as described herein with reference to the examples herein.
9. A method of coating a sheet in the absence of a primer layer comprising applying directly to a primerless sheet in one or more steps a coating as described in any
30 preceding claim.
10. A printable label and/or graphic arts display comprising a coated sheet as claimed in any of claims 1 to 8.
